

## ROBINSON AND OTHERS CRITICISE TAWNEY

McLachlan Tells Chairman of Appropriations He Must Not Suppress Truth.

Continued from Page One.

Senator Dillingham against the re-  
The question will be submitted to  
fall committee next Monday.

The constitutional amendment fa-  
vored by Senators Borah and Rayner  
contains this provision:

"The senate of the United States  
shall be composed of two senators from  
each state, elected by the people there-  
of for six years; and each senator shall  
have the qualifications required by  
the electors of the most numerous  
branch of the state legislatures."  
The times, places and manner of  
holding elections for senators shall be  
prescribed in the state by the legisla-  
ture thereof."

President's Nominations.

President Taft today sent nomina-  
tions to the senate as follows:

To be consul general—W. Stanley  
Gibson, of Massachusetts, at Beirut, Tur-  
key; and H. Hollis of South Dakota,  
Constantinople.

To be consul—Edwin S. Cunningham,  
of Tennessee, at Bombay, India;

H. Dunnington of Ohio, at Dundee,  
Scotland; Nathaniel B. Stewart of  
Georgia, at Durban, Natal.

Mr. Taft today lost his three days' fight  
with the so-called French spoliation  
claims, as incorporated in the omnibus  
bill.

The French spoliation claims consist  
of claims made by American citizens  
of denigrations on American  
commerce by French vessels from 1792  
to 1801. They have been urged  
before congress since 1801. The amount  
of claims as carried in the present  
bill is \$842,000.

The vote on Mr. Bristow's motion  
to eliminate the spoliation claims,  
entered a motion to recommit the  
measure, and the debate pro-  
ceeded.

The motion to recommit did not reach  
the vote and the bill was still under  
consideration when the senate adjourned.

To Investigate Alaska's Mineral.

An urgent deficiency appropriation  
carrying \$850,000 needed for the  
next fiscal year, was reported to the  
house today by the appropriations com-  
mittee.

Among the items are \$100,000 for  
conducting the investigation of the min-  
eral resources in Alaska; \$550,000 to  
conduct dry dock work at the New  
York navy yard; \$17,500 for the sala-  
ries of the recently appointed five ad-  
judicators for the half year be-  
ginning January 1, at \$7,000 per an-  
num each, together with \$15,000 per an-  
num expenses allowed for each adju-  
dicator in connection with the  
duties on the United States court of  
claims, and \$36,000 for the expenses  
of the court during its first six months  
existence, beginning January 1.

## DIAZ FORCES CRUSHED; SURRENDER TO REBELS

Scene in Torreon, where the rebel general, Madero, is said to make his headquarters.

Continued from Page One.

homes. The colonies are in good condi-  
tion, generally speaking.

"From what I know of the country and  
the people, the Mexicans have no appar-  
ent legitimate reason for revolting. Small  
revolutions have occurred in the coun-  
try throughout its history. These little  
troubles have been short-lived, however,

and have burned out nearly as quickly  
as they were kindled. The Mexicans  
are known to be rather hot tempered peo-  
ple and ready to fight at the least provo-  
cation."

Some of the Mormon colonies are  
about sixteen miles from Juarez, where  
troops are reported to have been sent  
from Chihuahua about the middle of  
December."

**LORDS PUZZLED BY THE  
RESULT OF ELECTIONS**

LONDON, Dec. 16.—With only twenty-  
eight seats in the new house of com-  
mons yet to be decided from the gen-  
eral elections are practically ended and  
the political orators have begun a much  
needed rest. Of the twenty-eight vacant  
seats, twenty already have been poll-  
ed, for though the results will not be known  
until tomorrow.

The position of the contending parties  
tonight is as follows:

Government coalition, 277; Unionist,  
293.

Members of the house of lords party  
are agreed to call the result of the bat-  
tle a draw, but there is no unanimity  
among them as how best to meet the  
new situation when parliament meets.

Some of them want the house of lords  
immediately to reject the government's  
veto bill, while others favor a policy of  
delay by discussing the bill and eventu-  
ally inserting wholesale amendments  
to it.

The Unionists' Saturday Review says  
that King George was badly advised in  
consenting to the dissolution of parlia-  
ment, but it cannot see how his majesty  
can now avoid coming to a decision in  
favor of one party or the other.

**DR. PLUMMER'S CONDITION  
REGARDED AS SERIOUS**

Dr. Charles G. Plummer, who is at the  
L. D. S. hospital suffering from blood  
poisoning, contracted while recently per-  
forming a surgical operation, was re-  
ported early this morning as worse.

The injured physician was operated on  
Thursday for the removal of pus from  
his infected hand and arm and for a  
time showed signs of improvement, but  
his condition grew worse Friday after-  
noon and at last reports were such as to  
excite alarm.

**Earthquake in Pacific.**

SEATTLE, Dec. 16.—An earthquake  
shook, probably in the Pacific ocean 1200  
miles west of Seattle, was recorded by  
the University of Washington's seismo-  
graph today, with slight tremors at 7:05  
a. m. and strong vibrations from 7:30 to  
8. The west to east vibrations were the  
most marked.

## ROYAL BAKING POWDER

Absolutely Pure  
The only baking powder  
made from Royal Brand  
Cream of Tartar  
No Alum, No Lime Phosphate

### NEW SET OF INDICTMENTS AGAINST BEEF PACKERS

CHICAGO, Dec. 16.—A new set of in-  
dictments charging the National Packing  
company and its officers with conspiring  
to restrain trade was returned today be-  
fore Judge Landis in the United States  
district court. These indictments were  
brought to obviate any difficulty arising  
from the packers' claim of impropriety  
in Judge Landis's hearing the case, on  
the ground that several years ago as as-  
sistant United States district attorney he  
took part in an investigation of beef  
packing. Trial under the new indict-  
ments will be before another judge.

### RUSSIAN CRUELITIES AROUSE MANY PROTESTS

ST. PETERSBURG, Dec. 17.—Students  
at nearly all high schools have ceased  
work in protest against cruelties which,  
it is alleged, are being inflicted upon po-  
litical prisoners. At Moscow an indignan-  
tary meeting, organized by the students  
of Moscow university, was broken up by  
the police. The duma today discussed  
the interpellation of the opposition mem-  
bers regarding the wholesale flogging of  
political prisoners in the Zaraitul and  
Vologda prisons in Siberia, but a motion  
that an inquiry be made into the matter  
was rejected.

### CONTRACTOR IDENTIFIED AS MAN REPORTED DEAD

EL PASO, Tex., Dec. 16.—It became  
known today that King Worley, a con-  
tractor of this city, is in reality William  
Wales Aldridge, who disappeared from  
Springfield, Mo., eight years ago and was  
supposed to be dead. Aldridge was lo-  
cated here as the result of a persistent  
search by insurance companies, against  
whom suits for the payment of policies  
on his life are pending.

### Find Norton Guilty.

Harry Norton, accused of criminal in-  
timacy with Frances Blundell, a 14-  
year-old girl, was found guilty by a jury  
in the criminal division of the Third  
district court Friday. The case reached  
the jury at 11:30 o'clock in the forenoon  
and the verdict was returned at 4 o'clock  
in the afternoon. Norton was ordered  
to appear for sentence next Monday.

### STREET CAR COMPANY IMPORTS STRIKEBREAKERS

WINNIPEG, Man., Dec. 16.—At 7  
o'clock tonight the street railway com-  
pany called in their cars that had been  
running every half hour on Main street  
since the strike was begun this morning.  
The city is quiet. All terminal sheds are  
guarded. The company expects a large  
force of strikebreakers to arrive tomor-  
row. Cars were manned by volunteer  
high school students today.

## Grand Display Toys, Presents

### "Where" 42 to 48 West 1st So.

SEE OUR WINDOWS! SEE OUR WINDOWS!

Come in and see our store up and down stairs. Presents for each. Presents for all. Gifts free for each. Gifts free for all. All our merchandise specially reduced for Christmas and New Year's Presents. Too much to mention here. Come and we will clothe and feed you. See for yourselves.

## People's Cash Dept. Store

42 to 48 West First South.

### CANADIANS WANT PEACE COMPACT WITH AMERICA

WASHINGTON, Dec. 16.—Commenting  
on the report from Ottawa yesterday  
that a resolution would be introduced in  
the Canadian parliament looking toward  
the establishment of a permanent peace  
union between the United States and  
Great Britain, Judge William R. Middle  
of the high court of justice of Ontario,  
declared today that such a compact was  
desired by every person in Canada.

Judge Riddell is here as Canada's dele-  
gate to the international conference of  
the American Society for Judicial Settle-  
ment of International Disputes.

### WAR SCARES MADE BY ARMAMENT MEN

Editor of London Economist  
Says Contractors Will Even-  
tually Bankrupt Nations.

WASHINGTON, Dec. 16.—That war  
scares are largely inspired by "arma-  
ment contractors who ultimately would  
drag various countries into the bank-  
ruptcy court," was charged by Francis  
W. Hirst, editor of the London Econom-  
ist, in an address before the International  
Conference of the American Society for  
Judicial Settlement of International Dis-  
putes tonight.

He characterized as absurd the pur-  
chase of dreadnoughts by Brazil "to pro-  
tect itself against Argentina," and said  
the rivalry between Japan and the  
United States were crushing the people  
of Japan under a load of taxes, while  
armament expenditures were wrecking  
Great Britain and Germany.

The supreme court of the United States  
as analogous to the proposed arbitral  
court was often cited in the discussion  
of the conference. Andrew J. Montague,  
former governor of Virginia, character-  
ized the supreme court of the United  
States as an international court, "be-  
cause it was called to settle differences  
between sovereign states."

The permanent court of arbitral jus-  
tice, the purposes of which the society  
hopes ultimately to put into effect, re-  
ceived favorable and unfavorable treat-  
ment by various speakers.

### JOHN DADIE AND MANY OTHERS ARE INDICTED

CHICAGO, Dec. 16.—John Dadie, sec-  
retary of William Moxley, incorporated,  
oleomargarine manufacturers, was in-  
dicted by a federal grand jury today,  
charged with conspiracy to defraud the  
government. Indictments against twelve  
other men on the same charge were re-  
turned, but these were suppressed. Dadie,  
who is a son-in-law of Congressman Wil-  
liam J. Moxley, the head of the Moxley  
company, appeared in the clerk's office  
of the United States district court and  
gave bonds of \$10,000.

### JAP FLEET ARRIVES OFF COAST OF MEXICO

MEXICO CITY, Dec. 16.—Special dis-  
patches from the port of Manzanillo to-  
day said that the Japanese fleet, in com-  
mand of Rear Admiral Yashiro, had ar-  
rived there. A military commission sent  
from Mexico City conveyed to the Japa-  
nese officers greetings from President  
Diaz and an invitation to visit the cap-  
ital. The invitation was accepted, but so  
far the date has not been named. Many  
honors were paid the Japanese officers.

### GOULD INTERESTS LOSE FIGHT WITH INSURGENTS

NEW YORK, Dec. 16.—The insurgent  
first mortgage bondholders of the Wabash  
Pittsburg Terminal railway company won a victory over the controlling  
Gould interest today.

Justice Noyes, in the United States  
circuit court, decided that the Central  
Trust company of this city, acting as  
depository for the first mortgage bond-  
holders' committee, must return to the  
insurgents the bonds which they have  
been fighting for two years to regain.

The Wabash-Pittsburg Terminal Rail-  
way company was formed in 1903 to give  
the Wabash railroad an entrance into  
Pittsburg. All its stock is owned by the  
Wabash, a Gould property.

### IRISH LEAGUE CABLES REDMOND CHRISTMAS GIFT

BOSTON, Dec. 16.—The United Irish  
League of America today cabled as a  
Christmas present to the national trust-  
ees of the Irish parliamentary fund an  
additional remittance of \$10,000 to sus-  
tain the hands of the Irish national lead-  
er, John E. Redmond, and his colleagues  
to the end of the present electoral strug-  
gle. This makes the eighth installment  
of a like amount sent in eight weeks  
since Mr. Redmond and his colleagues  
made their appeal in this country.

### MILLION CHINESE ARE SUFFERING FROM FAMINE

WASHINGTON, Dec. 16.—Famine im-  
pendes over more than a million Chinese  
in the northern part of the province of  
Anhui, a section of the country very sub-  
ject to destructive floods from the  
river and its tributaries. The American  
consul at Nanking, after a careful in-  
vestigation of the situation, has called  
the state department that he finds it  
very bad.

# What About Brain Food?

## This Question Came Up in the Recent Trial for Libel

A "Weekly" printed some criticisms of the claims made for our  
foods. It evidently did not fancy our reply printed in various news-  
papers, and brought suit for libel. At the trial some interesting facts  
came out.

Some of the chemical and medical experts differed widely.

The following facts, however, were quite clearly established:

Analysis of brain by an unquestionable authority, Geoghegan,  
shows of Mineral Salts, Phosphoric Acid and Potash combined (Phos-  
phate of Potash), 2.91 per cent of the total, 5.33 of all Mineral Salts.

This is over one-half.

Beaunis, another authority, shows "Phosphoric Acid combined"  
and Potash 73.44 per cent from a total of 101.07.

Considerable more than one-half of Phosphate of Potash.

Analysis of Grape-Nuts shows: Potassium and Phosphorus,  
(which join and make Phosphate of Potash,) is considerable more than  
one-half of all the mineral salts in the food.

Dr. Geo. W. Carey, an authority on the constituent elements of  
the body, says: "The gray matter of the brain is controlled entirely  
by the inorganic cell-salt, Potassium Phosphate (Phosphate of Pot-  
ash). This salt unites with albumen and by the addition of oxygen  
creates nerve fluid or the gray matter of the brain. Of course, there  
is a trace of other salts and other organic matter in nerve fluid, but  
Potassium Phosphate is the chief factor, and has the power within  
itself to attract, by its own law of affinity, all things needed to manu-  
facture the elixir of life."

Further on he says: "The beginning and end of the matter is to  
supply the lacking principle, and in molecular form, exactly as nature  
furnishes it in vegetables, fruits and grains. To supply deficiencies—  
this is the only law of cure."

The natural conclusion is that if Phosphate of Potash is the  
needed mineral element in brain and you use food which does not  
contain it, you have brain fog because its daily loss is not supplied.

On the contrary, if you eat food known to be rich in this element,  
you place before the life forces that which nature demands for brain-  
building.

In the trial a sneer was uttered because Mr. Post announced that  
he had made years of research in this country and some clinics of  
Europe, regarding the effect of the mind on digestion of food.

But we must be patient with those who sneer at facts they know  
nothing about.

Mind does not work well on a brain that is broken down by lack  
of nourishment.

A peaceful and evenly poised mind is necessary to good diges-  
tion.

Worry, anxiety, fear, hate, &c., &c., directly interfere with or  
stop the flow of Ptyalin, the digestive juice of the mouth, and also in-  
terferes with the flow of the digestive juices of stomach and pan-  
creas.

Therefore, the mental state of the individual has much to do  
(more than suspected) with digestion.

This trial has demonstrated:

That Brain is made of Phosphate of Potash as the principal  
Mineral Salt, added to albumen and water.

That Grape-Nuts contains that element as more than one-half of  
all its mineral salts.

A healthy brain is important, if one would "do things" in this  
world.

A man who sneers at "Mind" sneers at the best and least under-  
stood part of himself. That part which some folks believe links us to  
the Infinite.

Mind asks for a healthy brain upon which to act, and Nature has  
defined a way to make a healthy brain and renew it day by day as it  
is used up from work of the previous day.

Nature's way to rebuild is by the use of food which supplies the  
things required.

"There's a Reason."

Postum Cereal Co., Ltd.,  
Battle Creek, Mich.
